FAVRES

Executive Function Assessment

Administered by our Registered Speech-Language Pathologist | Ancaster & the Greater Hamilton Area

What is the FAVRES?

The FAVRES (Functional Assessment of Verbal Reasoning and Executive Strategies) is a clinically validated assessment that uses real-world tasks to show how you plan, focus, and make decisions when things get complex - tasks like scheduling a workday, planning an event, and solving a practical problem.

This isn't a diagnosis. It's a clear, practical picture of how your brain navigates real life.

Who is this for?

→ Adults and teens (age 12+) who feel their brain works differently around focus, planning, or follow-through

→ People returning to work or navigating workplace accommodations

→ Anyone working with an EF coach or therapist who wants deeper insight

→ Students struggling with organization or daily life management

→ Anyone with unused SLP benefits who wants to explore their executive function profile

What it measures:

→ Getting the Facts

→ Eliminating Irrelevant Information

→ Weighing the Facts

→ Flexibility

→ Generating Alternatives

→ Predicting Consequences

→ Providing a Rationale

The NowWhat? Difference

Most assessments note where you *stop*. We keep going - with supports in place - to **find out what actually helps you succeed**. That's information you can use for workplace accommodations, coaching, and everyday strategies.
